COLLEGE WISE

As high school students, I feel the need to talk more about the "test prep" that is offered through CollegeWise.

- On average, you will go up 110 points on your SAT and 4 points on your composite ACT.
- They offer 30+ subjects to be tutored in.
- All tutors are in the 95th percentile or higher in their subject.
- One more exciting thing about YOF is that there are TWO funding periods to receive a grant. The first cycle ends on October 15th and the second cycle begins on February 1st and ends on March 1st. This ensures that newly chartered clubs can participate, and clubs that were rejected can revise their application and apply. Offered as personalized 1:1 sessions or group courses.
- Tutors are equipped to work with students on almost any standardized test, including the ACT, SAT, PSAT, PreACT, and ISEE/SSAT.
- Targeted 1:1 tutoring sessions in Math, Engineering, English, Calculus, Spanish, Statistics, and more.
- Tailored instruction to any curriculum by our expert tutors.
- Customized lesson plans and homework assignments.

With the primary offer of college admissions counseling, test prep, and tutoring services. Having over 70 counselors and tutors with 400+ years of combined admissions experience, people can get the help they need. CollegeWise allows students to pay hourly or through a bundle of admission services

Since we are partners with CollegeWise Key Clubbers have access to various resources, including a resource library, blogs, podcasts, and boot camps at half the price!
